

HOOPLA is sophisticated fun, in the form of manis, pedis, wax, facials and massage! They want their customers to let loose and go a little nutty in choosing one (or many) of their signature, HOOPLA mini-polishes. As a women-owned business, HOOPLA provides fun and refreshing services in a place where busy customers can pop in or schedule an appointment. A brief respite can be just the thing to lift spirits and energize fast-paced lives. You can book an appointment online or visit one of their two stores in Fairway and in Leawood, Kansas.

About Grow Home Spotlight

Lead Bank introduced "Grow Home Spotlight" during Q4 2017. This initiative celebrates and supports Kansas City small businesses by featuring local businesses' products at the Lead Bank Crossroads location each quarter. Lead Bank wants people in the community to know the stories of our great, local Kansas City businesses.

Lead Bankers are trained on the ins and outs of what makes each retailer's products and experience special. Bankers learn the inventory and brand message so they can effectively deliver the retail experience at the Bank. By acquainting themselves with the brand, Bankers can articulate what makes each company such a special, unique business to Kansas City. Our mission is to be at the heart of the success of our communities, which means it is our responsibility, as a bank, to foster the economy of local small businesses. We're excited to be able to work with these great business owners and to be able to showcase some of their products to everyone in the downtown area.
